

Chapter Building, Recruitment And Flier Handbook

NTEU Officers and Stewards:

For the first time NTEU is providing chapter leaders with our annual flier book on CD-ROM! These fliers, collected in the 2005 edition of the *Chapter Building, Recruitment and Flier Handbook*, are now in an electronic format that should substantially increase their value to you and your chapter.

My hope and expectation is that making these documents available electronically will make this volume a useful tool in your continuing efforts to recruit new members and to strengthen your chapter.

This CD is a compilation of a wide range of fliers that have been sent to NTEU chapters over the past year, and where appropriate in some instances, covering a longer time period. They deal with a variety of NTEU successes, such as contract wins, settlement of the special salary rates legal case and more, as well as with the challenges that continue to confront our union. In addition, the CD contains tips on how to create your own fliers as well as samples of clip art that you can use.

The NTEU Public Relations Department will assist your chapter building and developments efforts, including help in customizing any of the fliers for your chapter and workplace. Please call on them if needed. You can e-mail the PR Department at nteu-pr@nteu.org
